

Steps to Submit a Review on Peerspot

Please follow this simple step-by-step guide.

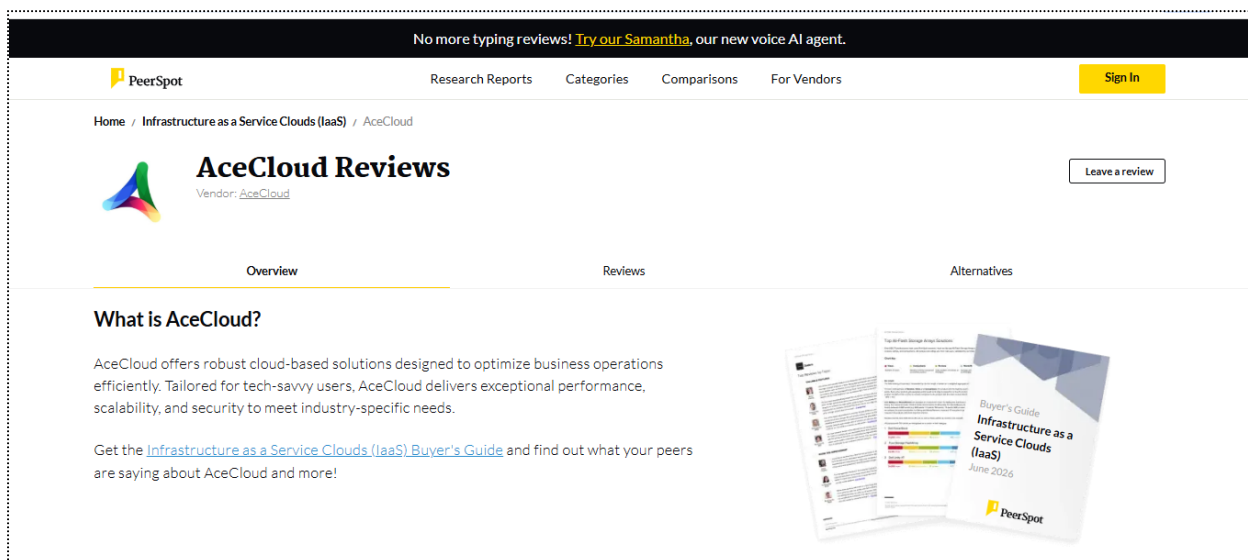

👉 Step 1: Open Peerspot

Open this website: (<https://www.peerspot.com/>)

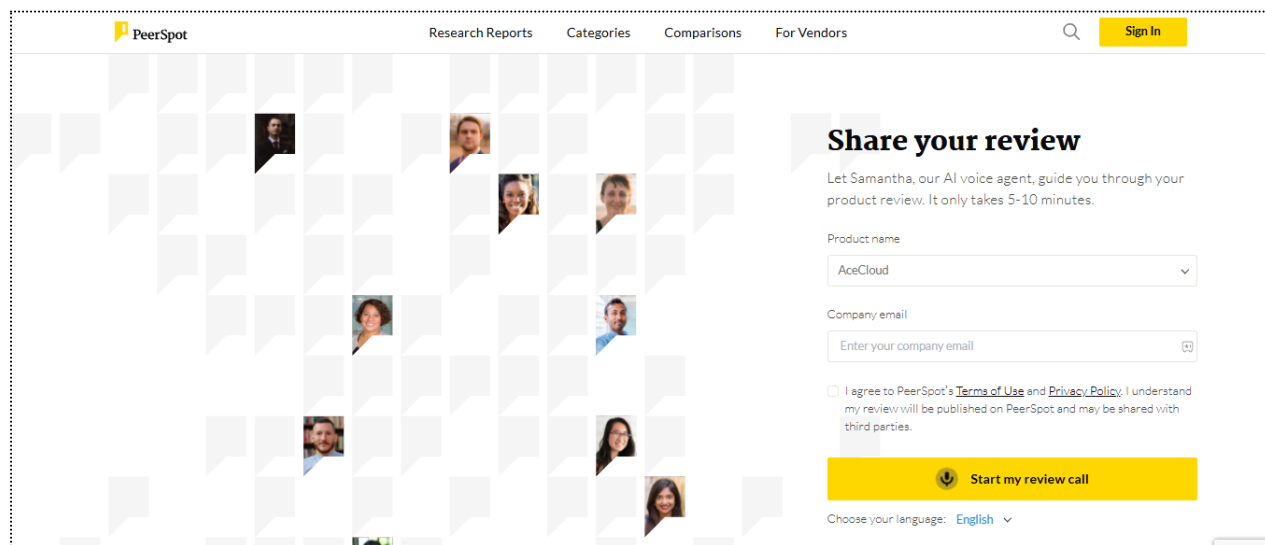

👉 Step 2: Find AceCloud

Search for **AceCloud** or open the AceCloud profile.

👉 Step 3: Start Your Review

Click on the **Leave a review** button. (Use your company email address only.)

The screenshot shows the PeerSpot website's 'Share your review' page. The header includes the PeerSpot logo, navigation links for 'Research Reports', 'Categories', 'Comparisons', and 'For Vendors', a search icon, and a 'Sign In' button. The main content area features a grid of user avatars on the left and a form on the right. The form is titled 'Share your review' and includes a sub-header: 'Let Samantha, our AI voice agent, guide you through your product review. It only takes 5-10 minutes.' The form fields are: 'Product name' (a dropdown menu with 'AceCloud' selected), 'Company email' (a text input field with a placeholder 'Enter your company email'), and a checkbox for 'I agree to PeerSpot's Terms of Use and Privacy Policy. I understand my review will be published on PeerSpot and may be shared with third parties.' Below the checkbox is a large yellow button with a microphone icon and the text 'Start my review call'. At the bottom, there is a language selection dropdown currently set to 'English'.

👉 Step 4: Share Your Experience

Explain how AceCloud has helped with your project, workload, or cloud infrastructure requirements.

Please share your genuine experience, including:

- The challenge you were facing
- The AceCloud product or service you used
- How AceCloud helped you
- The results or improvements you experienced

Do

- Mention AceCloud by name where the platform's format allows.
- Clearly identify the AceCloud workload, product, or service you actually used.
- Describe your real experience. Explain the use case, setup, results, challenges, and outcome where relevant.
- Include useful specifics. Mention details such as deployment experience, performance, cost, support, usability, or operational impact when you can verify them.
- Be balanced. Include genuine strengths, limitations, or areas that could be improved.
- Compare only from experience. Mention another provider or product only if you have used or evaluated it.
- Complete verification honestly. Use your real identity, role, company, and product experience wherever the platform requires them.

Don't

- Don't leave a vague review such as "Great service, highly recommend."
- Don't submit a review based on someone else's experience.
- Don't invent numbers, outcomes, workloads, or product capabilities.
- Don't hide genuine limitations simply to make the review more positive.

- Don't submit substantially identical reviews across multiple platforms.
- Don't manipulate ratings, or use abusive, insulting, or offensive language. Your rating should reflect your actual experience.
- Don't make unsupported accusations, or present rumours or hearsay as facts.
- Don't turn a specific experience into an exaggerated or misleading narrative.

Important — Reviews and incentives

- Do not mention any reward, voucher, incentive, payment, compensation, or this programme anywhere in the review itself.
- Do not refer readers to the programme or explain why you are submitting the review.
- Follow the individual review platform's applicable disclosure requirements.

Step 5: Review and Submit

 Done! Review all the information you entered, confirm that the uploaded screenshot is correct, and click Submit. Then send the screenshot of your review with details to (reviews@acecloud.ai)
