

Steps to Submit a Review on G2

Please follow this simple step-by-step guide.

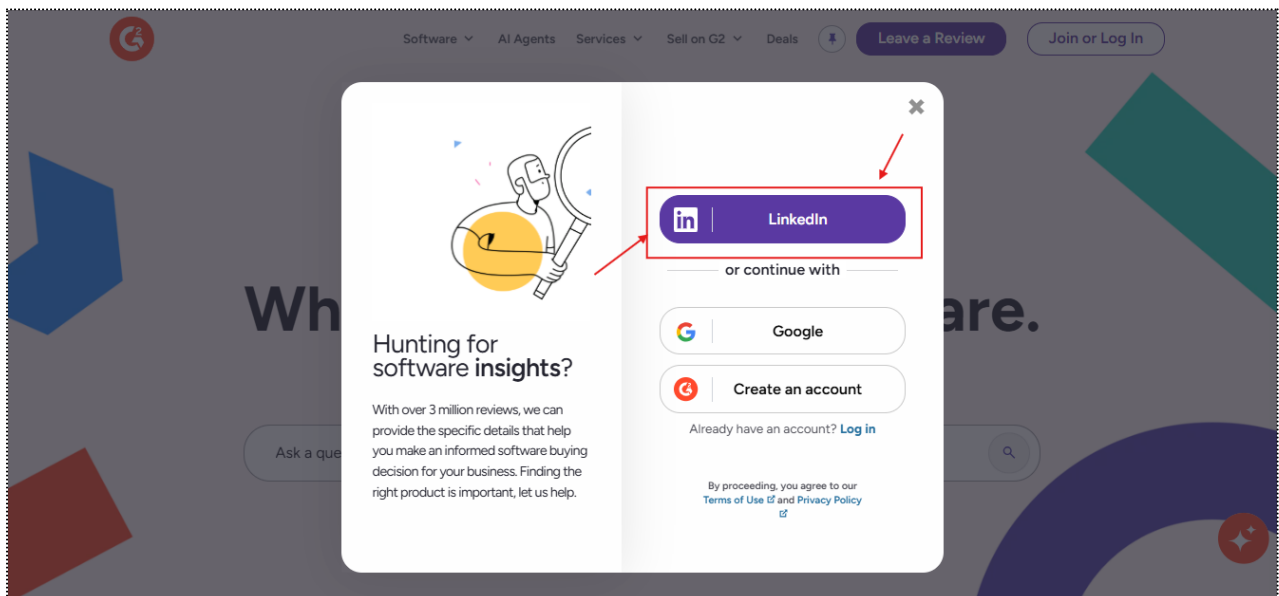

👉 Step 1: Open G2

Open this website: (<https://www.g2.com/>)

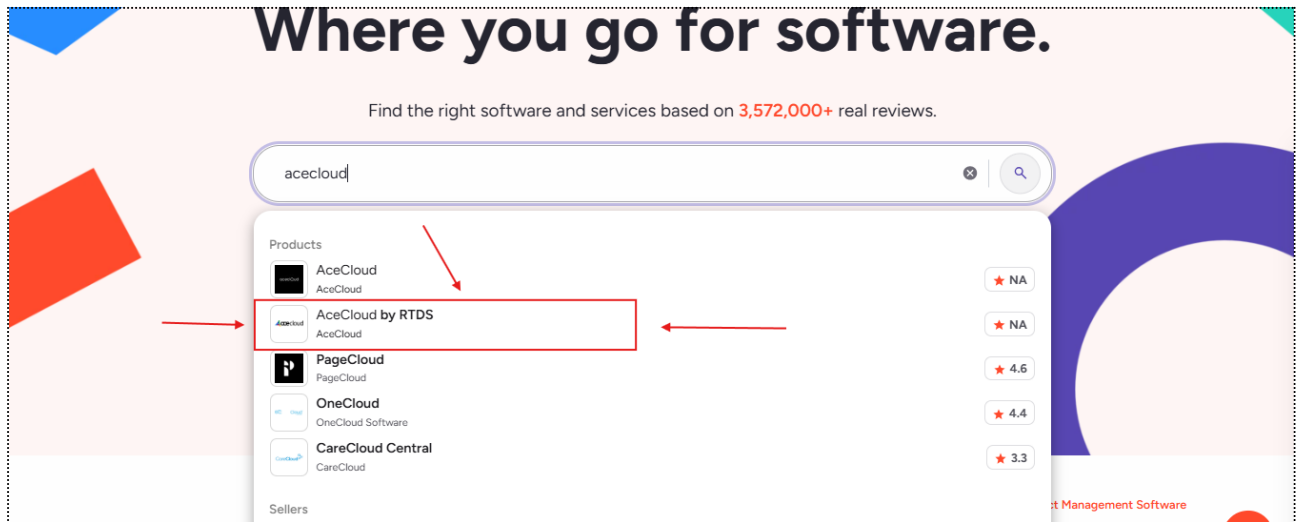

👉 Step 2: Create Your Account

Click **Sign Up** and create your account using your LinkedIn profile or Company email only.

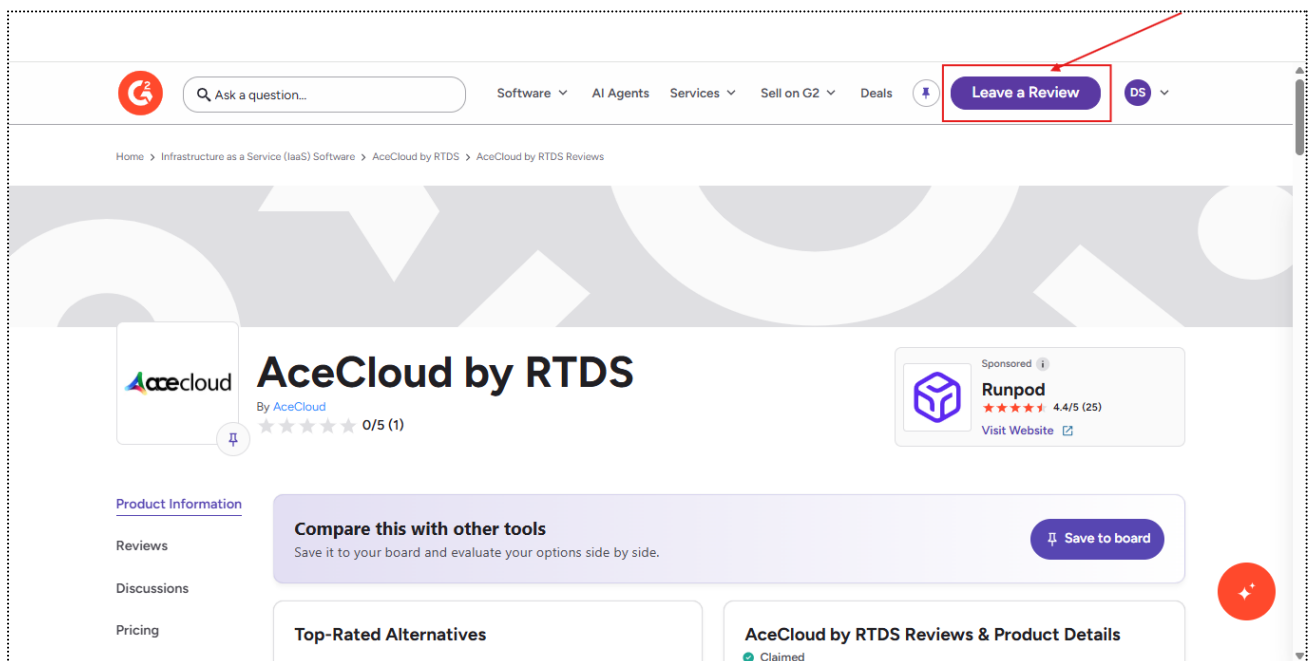

👉 Step 3: Find AceCloud

Search for **AceCloud by RTDS**.

👉 Step 4: Start Your Review

Click on the **Leave a review** button.

👉 Step 5: Select the Form Option

Choose the third option shown on the screen. The review process should take approximately 5–8 minutes.

The screenshot shows a web interface for selecting a review method. At the top, there's a G2 logo and the AceCloud logo. The heading is "How do you want to leave your review?". There are three radio button options: "Voice" (3-5 Minutes), "Chat" (8-10 Minutes), and "Form" (5-10 Minutes). The "Form" option is selected and highlighted with a red border. Below the options, there's a text block: "Leave your review using our review form. Our form will walk you through all of the review questions with the help of some AI features." Below this is a disclaimer: "By clicking 'Start Review', I agree that my participation and submission are subject to G2's [Terms of Use](#) and [Privacy Policy](#)." At the bottom is a blue "Start Review" button.

👉 Step 6: Share Your Experience

Explain how AceCloud has helped with your project, workload, or cloud infrastructure requirements.

Please share your genuine experience, including:

- The challenge you were facing
- The AceCloud product or service you used
- How AceCloud helped you
- The results or improvements you experienced

Do

- Mention AceCloud by name where the platform's format allows.
- Clearly identify the AceCloud workload, product, or service you actually used.
- Describe your real experience. Explain the use case, setup, results, challenges, and outcome where relevant.
- Include useful specifics. Mention details such as deployment experience, performance, cost, support, usability, or operational impact when you can verify them.
- Be balanced. Include genuine strengths, limitations, or areas that could be improved.
- Compare only from experience. Mention another provider or product only if you have used or evaluated it.
- Complete verification honestly. Use your real identity, role, company, and product experience wherever the platform requires them.

Don't

- Don't leave a vague review such as "Great service, highly recommend."
- Don't submit a review based on someone else's experience.
- Don't invent numbers, outcomes, workloads, or product capabilities.
- Don't hide genuine limitations simply to make the review more positive.
- Don't submit substantially identical reviews across multiple platforms.
- Don't manipulate ratings, or use abusive, insulting, or offensive language. Your rating should reflect your actual experience.

- Don't make unsupported accusations, or present rumours or hearsay as facts.
- Don't turn a specific experience into an exaggerated or misleading narrative.

Important — Reviews and incentives

- Do not mention any reward, voucher, incentive, payment, compensation, or this programme anywhere in the review itself.
- Do not refer readers to the programme or explain why you are submitting the review.
- Follow the individual review platform's applicable disclosure requirements.

What is most helpful about AceCloud by RTDS? What are the upsides of using AceCloud by RTDS?

Minimum characters remaining: 40

Review Helper

Focus on the features, benefits, or experiences that have provided the most value. Specific examples help others understand your perspective.

Suggestions

- Be specific and mention features and aspects of the software you use regularly
- Explain how it's improved your workflow: instead of writing 'easy to use', try 'the drag-and-drop interface saves me hours each week'
- Share any unexpected benefits you've discovered
